

MB Docket No. 03-185

REPLY COMMENTS OF TV-45, Inc. AND DOUGLAS SHELDAHL.
Having reviewed the comments of others in the original filing
we herewith respectfully submit our reply comments
to comments submitted for MB Docket No 03-185

1. I endorse and support International Broadcasting
Network's comments and reply comments that were filed
previously.
2. I would urge and request that the FCC grant permanent and unconditional
primary status for all LPTV stations.
This is an important issue if LPTV is going to have
a future and survive
as a service. LPTV is currently providing a valuable
service to the local communities and rural areas and
it should be provided for by the FCC in the digital
realm.
3. All LPTV stations should be given the opportunity to fully
participate in the digital transition in a manner that will
ensure LPTV'S viability and permanence as a valuable
community service. Therefore it is important that all
digital LPTV stations have permanent and
unconditional primary status.
4. All LPTV stations and permits should be given
and guaranteed the opportunity
to acquire a second channel for
digital broadcasting. These channels should have
increased power limits so the digital channel or
station can adequately provide a strong
digital signal in the community of service. This
would help the FCC further the transition to digital
as LPTV stations would rapidly move to their new granted
digital channels provided by the FCC.

Respectfully submitted,
Douglas Sheldahl, President
TV-45, Inc.
